DCAS READING WORKSHEET

The Structural Tarot Method

Decompose » Compare » Anchor » Synthesize — one reading, four passes, in order.

Date _____ **Question** _____ **Spread** _____

1 DECOMPOSE — one dossier per card (2–3 min)

inventory only — no interpreting yet

CARD	VISUAL INVENTORY	KEY SYMBOLS (2–3)	FORMULA (elem × no.)	ASTRO (planet in sign)	CANDIDATE MEANINGS (3)

rule: do not choose a meaning yet

2 COMPARE — cards against each other

patterns, not conclusions

Dominant element _____ **Dominant number** _____ **Most isolated card** _____ **Most future-facing card** _____ **HINGE card** _____

Dignities between cards (same element +, fire–air / water–earth friendly, fire–water / air–earth opposed):

3 ANCHOR — tie each card to the question

roles, weights, timing

CARD	ROLE (querent · person · situation · force)	WEIGHT (gravity · hinge · support)	TIMING (decan dates · suit speed)

choose from your candidate meanings now — and only now

4 SYNTHESIZE — build the reading

if a check fails, loop back to Step 3

One sentence per card (position + meaning + tie to question):

Integration — beginning » tension » direction (one paragraph):

Actionable close (one concrete step, within the querent's power):

SELF-CHECK ☐ every sentence ties to the question ☐ every card appears once ☐ one dominant theme ☐ swap-test: reading changes if cards swap ☐ close is actionable

The 4-step loop

Decompose » Compare » Anchor » Synthesize » self-check » revise
